PROFILE

A Data Engineering student at EST Ibn Tofail University, I have successfully engineered end-to-end streaming pipelines using Apache Kafka 3.9.0 and developed a full-stack Machine Learning application integrated with Streamlit. I possess advanced technical proficiency in big data technologies like Spark, Hadoop, and MongoDB, alongside a mastery of Linux-based development and shell scripting. Fluent in English, French, and Arabic, I pair these technical skills with strong problem-solving grit and a disciplined approach to collaboration. I am now keen to pursue a career in the cloud and big data sectors as a Junior Data or Cloud Engineer, contributing to large-scale infrastructure projects.

EDUCATION

EST Ibn Tofail University | Kenitra, Morocco

2026 - 2028

Master's Degree in Data Engineering and AI

Key Modules: Big Data, Cloud Computing, ETL/ELT Pipeline Orchestration, Python

EST Ibn Tofail University | Kenitra, Morocco

2025 - 2026

Bachelor's Degree in Data Science and Artificial Intelligence

Key Modules: Python, Data Mining, Data Visualization, Machine Learning, Deep Learning

FSTS Hassan 1st University | Settat, Morocco

2017 - 2020

Diploma of University Studies in Science and Technology (DEUST)

Key Modules: Math, Physics, Chemistry, SQL, C Language, Bash Scripting

Moulay Youssef High School | Rabat, Morocco

2014 -

2017

High School Diploma in Physical Sciences (French Option)

VOLUNTEERING

African Games | Rabat, Morocco

August 2019

Volunteer IT Technician and Personal Assistant

- Provided technical support
- Provided orientation and security for athletes
- Served as a Personal Assistant to a foreign VIP from Ghana
- Acquired rapid problem-solving skills and the ability to provide high-level tech support in a high-pressure international environment

Experience

Alternative IT | Settat, Morocco**June - December 2021***Web Development Intern*

- Developed a web-based public transport application using Symfony and Bootstrap.
- Integrated PostgreSQL for robust database management and data persistence.

CEMAP | Rabat, Morocco**April - July 2022***Web Development Intern*

- Developed an advertising web application using WordPress
- Guided clients within the language center.

ADDITIONAL SKILLS

Languages: Arabic (*Native*), English (*Fluent*), French (*Intermediate*)**Microsoft Office:** Proficient in Word, Excel and PowerPoint**Google workspace:** Proficient in Docs, Spread sheets and slides**Data Science:** Proficient in Python, Scikit-learn, Pandas, Streamlit, matplotlib, numpy

HOBBIES & INTERESTS

Open-Source Development: Passionate about minimalist computing environments and optimizing terminal-centric workflows for data engineering tasks.**Martial Arts:** Active practitioner of Muay Thai, fostering discipline and resilience.
